

Specific resources

Several **alternative or specific resources** are available for people who do not wish to use the standard actors (*occupational physician, Return to Work Coordinator (RTWC), initiatives at their own employer, Return Coach Flemish Government, VDAB*). These include:

- Career guidance/job coach
- Paramedic guidance
- GOB (specialized training, guidance and mediation service): only available for people with an employment contract
- GTB: Specialized Mediation Team

Some of these resources can provide **more intensive guidance** or have experience and tools for **specific target groups**, such as people with cancer or the visually impaired.

The range of specific resources is very varied, so a complete list is not available. Some options are listed to the right.

Attention points

- Entry requirements differ across services (status, region...)
- Some are affiliated with the VDAB for career vouchers, but you are not obliged to pass here
- Some resources (e.g. career guidance) are not free of charge
- You need an employment contract to register with a GOB
